

## **INTERNSHIP OPPORTUNITY**

### **Position: LIAISON AND EDUCATION ASSISTANT**

Contract Position for 6-month internship contract

Location: Jabodetabek

Starting period: June 1<sup>st</sup>, 2019

### **About Biorock Indonesia**

Biorock® Indonesia is the official representative of Biorock® International, a patented technology that uses low voltage electricity in the sea with the benefits of accelerating coral growth. Biorock® has been used for the restoration of coral reefs and shore protection in various locations in Indonesia since 2000. Within the Yayasan Karang Lestari Teluk Pemuteran (YKLTP), a non-profit organization based in Pemuteran, Bali, Biorock® Indonesia carries the concept of community-based coral reef restoration and become a coordinator for the application of the Biorock® method in the Indonesian territory.
